Docket: EPA-R03-OW-2010-0736
Draft Chesapeake Bay Total Maximum Daily Load

Comment On: EPA-R03-OW-2010-0736-0001
Clean Water Act Section 303(d): Notice for the Public Review of the Draft Total Maximum Daily Load (TMDL) for the Chesapeake Bay

Document: EPA-R03-OW-2010-0736-0426
Anonymous public comment

Submitter Information

Organization: National Wildlife Federation Action Fund

General Comment

It is obvious that our community, like every community, depends on clean water for our health, livelihoods and economic security.

It is upsetting then that pollution is killing the Chesapeake and hundreds of other rivers and creeks in our region. All this pollution makes its way to be collected into the bay, which disturbingly is in no better shape today than it was 25 years ago.

You now have the unique opportunity to do something about it, and the time has come to put strong, enforceable water safety standards in place to protect our homes, support our economy and ensure that our streams and rivers are healthy today and for our children's future.

I urge you to develop a strong pollution diet in my state that holds us all accountable for the pollution that is harming our wildlife and damaging our local economy. It is imperative that these plans address all sources of pollution and demonstrates how reductions will be gained. Citizens across this state and the region need your help to keep our water clean and protected.
